

PEDAGOGY - YESTERDAY, TODAY, TOMORROW

Instructions for writing and submitting a summary

The language of the summary can be Serbian or English. If the summary is submitted in Serbian language, it is necessary to attach a summary in English language. If the summary is submitted in English, the one in Serbian is not necessary. The summary should be from 150 to 200 words. It should contain the following elements: (1) research problem or research questions, (2) methods, (3) most important results, (4) conclusions, and (5) implications. At the end of the abstract three to five keywords should be listed.

Papers can be presented either orally or as posters. One author can register up to three 3 papers for the conference, whereas he/she can be the first author on only one paper.

When applying with a summary, it is necessary to state the names and affiliations of all the authors, their title, as well as the contact email of the first author (who will receive a confirmation email after a successful application).

The summary submission is done through electronic form, which is available at: <https://forms.gle/GvMaoyBXnyDEdRJSA>. After the anonymous review of the summary author(s) will receive feedback within two weeks from the moment of submission. Accepted summaries will be published in the electronic book of abstracts.
